The Knife Makers Brand

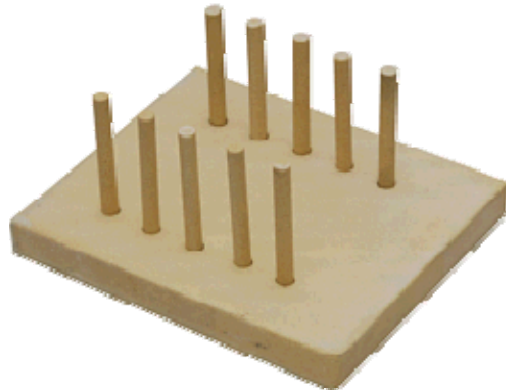

Evenheat Blade Fixtures

Our blade fixtures were designed specifically to hold your blades vertically and securely. They're well designed and provide ample space for foil inflation while being absolutely stable. You won't have to work around these and they certainly won't fall over. They're like no other blade fixtures available.

Evenheat MK 1 Blade Fixture

Designed for use with our KH line of Knife Ovens. May also be used in our KF models as well.

Evenheat MK 2 Blade Fixture

Designed for use with our KF line of Knife Ovens. Will not fit in KH models.
