The Knife Makers Brand

Set-Pro

Automatic Temperature Controller

Heat treating is made pure and simple with our Set-Pro, 3 button temperature control.

The Set-Pro allows you to control rate of temperature increase (or decrease if you would like), set point temperature and soak time at temperature.

The Set-Pro contains space to hold up to 4 of your heat treat programs that can be easily programmed, recalled and used.

The Set-Pro is standard equipment all Evenheat Knife Ovens.
